CAREER EXPERIENCE

World Story Exchange, Norwich, VT

September 2014 - Present

Workshop-based program & online platform focused on creating a supportive environment for youth to share their stories

Co-Founder

Host and lead documentary storytelling workshops and creative project-based learning programs for youth ages K-12.

Each student is invited to create art that expresses their voice. Curriculum is shaped to fit within school schedule and goals of collaborating teachers. Workshops include the use of 15 'kid-proof' camera kits and are typically 5-10 days in duration.

- Organize annual or bi-annual workshop opportunities within the United States and around the world
- Collaborate with teachers to develop creative prompts that fit within their subject area
- Student storytelling projects are exchanged between workshops participants in Vermont and global project sites
- Fundraise money to supplement film, photography, & creative arts workshops for youth worldwide
- Manage website and film archives

USA project locations include:

Vermont: Hartford High School, Creative Lives After School Program, Creative Lives, Haven Summer Camp and After-School Program, Marion Cross School, Venture's Summer Camp, Hartford Area Career and Technology Center, VINS, Artistree, Open Fields School, Four Winds Nature Institute; *New Hampshire:* Lebanon Middle School; *California:* Monarch School, Downer Elementary School, Bolinas-Stinson School, Tomales Bay Youth Center, West Marin Elementary School; *North Carolina:* East Mecklenburg High School, NewGen Peacebuilders

Global project locations include:

Nicaragua, Mexico, The Bahamas, Lebanon, The Gambia, Vietnam, Cambodia, Thailand, Indonesia

Boston Scientific – Cardiac Rhythm Management Division, Natick, MA

August 2010 - May 2014

Partners with the Electrophysiology Division and physicians to develop therapies for abnormal heart arrhythmias

Field Clinical Representative

Collaborated with Electrophysiology/Cardiology physicians to help manage Heart Failure and pro-arrhythmic patient populations. Offered technical solutions and product coaching during the implantation process of Pacemakers, Internal Cardiac Defibrillators, and Bi-ventricular devices. Optimized Legacy and new platform cardiac devices in Cardiology offices throughout MA, RI, NH & VT.

- Facilitated training programs for device function and algorithms for nurses, doctors, and patients
- Mentored Electrophysiology and Cardiology fellows on implant and device optimization techniques and helped to transition them effectively into the work force
- Attended and/or organized BSC booths for nationally & locally held conferences including VT Symposium, Eastern Atrial Fibrillation Conference, NNEACC, DHMC Advances in Heart Failure
- Held full-day training session for Electrophysiologists & Nurses in Managua, Nicaragua in collaboration with Manager of Central America and Nicaragua BSC representative
- Managed 500+ products regulated by expiration-date
- Covered call to support an implant procedure or device optimization outside of daily coverage
